LETTER

STATE CORPORATION COMMISSION
BUREAU OF INSURANCE

WITHDRAWN

April 29, 1983

By Administrative
Letter 1990-21
ADMINISTRATIVE
LETTER 1983-4

TO: ALL PROPERTY AND CASUALTY COMPANIES LICENSED TO WRITE
AUTOMOBILE AND/OR HOMEOWNERS INSURANCE IN VIRGINIA

RE: Revised VA CP-12 (4/83), VA CP-19 (4/83), and
VA CP-20 (4/83)

Commissioner Day's directives of November 12, 1976 and February 25, 1977, established a rate level index system to monitor price changes for personal lines of insurance in Virginia. These directives required that each company (or Rate Service Organization) provide the specific rate information requested for the specifically defined risks on the appropriate rate monitoring forms. These forms were again changed as outlined in Administrative Letter 1979-4.

At this time, we are amending the forms in question as respects the Instruction section and the Interrogatory and Signature section. The resulting forms VA CP-19 (4/83), VA CP-20 (4/83), and VA CP-12 (4/83) are attached. THESE FORMS SHOULD BE REPRODUCED FOR FUTURE USE.

Any Private Passenger Automobile rate filing or Homeowners rate filing submitted to be effective on or after June 1, 1983 must be accompanied by the April, 1983 edition of the CP-12, CP-19, and CP-20.

Please note that any Private Passenger Automobile rate filing or Homeowners rate filing effective June 1, 1983 or later will be considered incomplete without the requested rating examples being attached thereto. In the event this company has submitted such a rate filing(s) to become effective June 1, 1983 or subsequent, such filings should be immediately updated by forwarding the properly completed forms.

Sincerely,

James M. Thomson
Commissioner of Insurance

JMT/mle

(See Reverse Hereof for Instructions)

INSTRUCTIONS

Report annual rates for the highest (best) fire protection class in each territory for coverage under "Broad Form (Form 2)" with a \$100 Flat deductible. Dollar amounts in parentheses are "insured for" values. Do not apply any other rating rules or procedures. Since Charlotte County is representative of a rural risk, Protection Class 10 should be used.

Where the company does not issue "Broad Form (Form 2) policies, please clearly note this fact and report instead rates for the company's policy most comparable to the requested coverage, and indicate the details thereof below.

NOTES:

INTERROGATORY AND SIGNATURE:

1. Are your rates calculated using loss costs information published by Insurance Services Office, Inc. without modification? Yes _____ No _____
If so, state the applicable Circular Number _____.
2. Are your rates calculated using expense information published by Insurance Services Office, Inc. without modification? Yes _____ No _____
If so, state the applicable Circular Number _____.
3. Does your Company charge rates identical to those recommended by American Association of Insurance Services? Yes _____ No _____
