

DIVISION OF ECONOMICS AND FINANCE

The Division of Economics and Finance performs analysis and research on economic and financial issues pertaining to utility regulation. The Division also provides analytical and research support as needed by non-utility divisions within the Commission.

The Division has ongoing responsibility for:

- issuing monthly Fuel Price Index reports;
- maintaining and issuing monthly reports for the electric utility Fuel Monitoring System;
- issuing quarterly Natural Gas Price Index reports;
- analyzing and presenting testimony on capital structure, cost of capital, and other finance-related issues in utility rate cases;
- analyzing and presenting testimony on interest expense, appropriate earnings level and other finance-related issues in electric cooperative rate cases;
- monitoring the financial condition of Virginia utilities;
- monitoring the diversification activities of holding companies with utility subsidiaries operating in Virginia;
- reviewing annual financing plans of Virginia utilities;
- analyzing utility applications for the issuance of securities and providing the Commission with recommendations;
- conducting studies of intermediate/long range issues in electric, gas and telecommunications utility regulations;
- acquiring and running analytic computer models used to simulate, project, and/or evaluate utility operations and regulatory issues;
- monitoring inter-LATA and intra-LATA telecommunications competition;
- monitoring the incumbent local exchange companies participating in the Alternative Regulatory Plans;
- monitoring new entrants to the telecommunications market;
- analyzing financial fitness of applicants seeking status as competitive local exchange and interexchange carriers, and municipal local exchange carriers;
- monitoring and maintaining files of electric utilities' operating forecasts;
- monitoring and maintaining files of gas utilities' Five Year Forecasts;
- providing statistical and graphic support for other SCC divisions;
- maintaining database management systems for preparation of economic and financial analysis in utility cases;
- maintaining a utility stock price database;
- maintaining an electric energy market price database;
- monitoring electric and natural gas retail access programs statewide and nationally;
- monitoring evolving competitive energy markets, including market power issues;
- monitoring and participating in Virginia's membership within the regional transmission organization known as PJM Interconnection, LLC
- analyzing applications for licenses to become a competitive service provider or aggregator;
- analyzing energy efficiency and customer demand-response programs and associated trends;
- analyzing effects of electricity generation from renewable resources; and
- analyzing financial fitness of non-regulated firms seeking approval to build generating facilities or gas pipelines.

SUMMARY OF MAJOR ACTIVITIES DURING 2007

- Presented testimony on capital structure, cost of capital and other financial issues in nine investor-owned utility rate cases.
- Presented testimony on the appropriate level of toll for the Toll Road Corporation of Virginia.
- Worked on one gas utility application seeking authority to hedge gas purchases through the use of financial hedges.
- Presented testimony on financial and competitive issues for two utility merger cases.
- Completed 18 Annual Informational Filing reports for electric, gas, telephone and water utilities.
- Analyzed and processed 25 applications of utilities seeking authority to issue securities.
- Processed the applications of and/or prepared reports regarding the financial condition of 18 competitive local exchange carriers and/or interexchange carriers.
- Participated in one major Federal Energy Regulatory Commission proceeding related to Regional Transmission Organizations and energy markets.
- Prepared reports on four applications for a certificate to construct a new electric generating facility.
- Prepared reports on four applications for a certificate to convert existing QF facilities to IPP generating facilities.
- Prepared testimony for four electric fuel factor proceedings.
- Prepared reports regarding the financial condition of 8 companies seeking licensure as aggregators.
- Developed and maintained various econometric models that help explain price movements in the PJM Interconnection.
- Began preparation to develop rules regarding interconnection standards for distributed generation facilities.
- Supported and monitored activities regarding the continued development of Regional Transmission Organizations (PJM Interconnection, LLC) and associated participation of Virginia electric utilities.
- Monitored evolution of Electronic Data Interchange guidelines for communication among utilities and competitive service providers in Virginia and the surrounding region, as well as nationally.
- Monitored activities of the North American Energy Standards Board, encompassing wholesale and retail electricity and natural gas sectors, to establish Uniform Business Practices.
- Developed the Status Report to the Legislative Transition Task Force and Governor of Virginia regarding the Development of a Competitive Retail Market for Electric Generation within the Commonwealth of Virginia.
- Developed a Report transmitted by the Commission to the Governor of Virginia and the General Assembly regarding energy efficiency, conservation and demand response as required by the Third Enactment Clause of Senate Bill 1416.
- Developed a forecast of the consumption tax collected on electricity usage for Public Service Taxation.
- Developed a forecast of the consumption tax collected on natural gas usage for Public Service Taxation.
- Developed a forecast of budget items for Bureau of Insurance.
- Developed a forecast of the valuation fund for the Offices of Commission Comptroller and Public Service Taxation.
- Maintained the Virginia Electronic Data Transfer website.
- Maintained a comprehensive database on competitive energy service providers.
