JUN 25 2002

Dear Bill,

Thank you for your letter of May 29, 2002 regarding Senate Bill 684.

We look forward to participating in the first meeting of interested stakeholders on July 10<sup>th</sup>. At that time, we hope to gain a better understanding of the basic purpose(s) to be served by the contemplated effort to collect information about specified electric generating and transmission facilities and natural gas transmission and storage facilities serving Virginia.

As you well know, there are a variety of federal and state governmental reporting requirements presently in place for electricity generators and natural gas transporters and utilities. Perhaps a good starting point for the July 10<sup>th</sup> discussion would be to review an inventory of these existing reports.

Cordially,

  
August Wallmeyer
