	ACTIVE OBSERVATIONS				
001	ACTIVE OBSERVATIONS KPMG Consulting observed discrepancies in the February 2001 release of the Verizon progression test deck version 3.5 LSOG4 documentation	Closed	Discussion Complete	05/22/01: Opened; Verizon agreed with the findings except the Item 2, the LSR listing in DL form issue. Verizon indicated that the findings they agree with have been corrected with the new release of the CTE Test Deck (May 7). Action Items: KPMG Consulting is to further investigate the Item 2 and address Verizon's comments at the next meeting. 06/05/01: Verizon indicated they no longer disagree with KPMG Consulting regarding Item 2. Further, Verizon indicated that Item 2 is corrected with the May 31 publication of CTE Test Deck. KPMG Consulting verified that the CTE Test Deck (Version 4.0) fixed the issues noted in Table 1 (as Verizon indicated in the previous meeting), except for Item 2. In addition, KPMG Consulting noted that the latest CTE Test Deck (Version 4.2, published May 31, 2001) partially fixed issues noted in Item 2. While the latest release fixed the DIRQTYNC & DIRTYP fields in DL form, the LSR continues to incorrectly list YPHV/YPH fields in DIR group. Action Items: Verizon will investigate LSR listing of YPHV/YPH fields and address any follow-up questions at the next Observation meeting. 06/12/01: Verizon indicated that Item #2 regarding YPHV/YPH fields in DIR group has been corrected with the updated CTE Test Deck release (June 11). KPMG Consulting asked a clarification question regarding Item #1, as to where the manual input error occurred during the process. Verizon indicated the manual error occurred at EDI where the tester entered the	
				wrong telephone number. KPMG Consulting indicated that issues noted in Item #5 regarding CKR & PORTED NBR fields in test case #31	

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				
				reappeared in CTE Test Deck Version 4.2. Action Items: KPMG Consulting will investigate LSR listing of YPHV/YPH fields in the updated release and address any follow-up questions at the next Observation meeting. Verizon will investigate the reappearance of issue Item #5 regarding CKR & PORTED NBR fields in CTE Test Deck Version 4.2 and address any follow-up questions at the next Observation meeting. KPMG Consulting confirmed that Item #2 regarding YPHV/YPH fields in DIR group has been corrected with the updated CTE Test Deck release (June 11). Verizon indicated that issues noted in Item #5 regarding CKR & PORTED NBR fields in scenario #31, which reappeared in the CTE Test Deck Version 4.2, have been corrected in the CTE Test Deck Version 4.4 (June 15). Action Items: KPMG Consulting will investigate issue Item #5 in the updated release and address any follow-up questions at the next Observation meeting. KPMG Consulting confirmed that the issues have been corrected in the CTE Test Deck Version 4.4 (June 15) and proposed to close the observation next week Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
				07/05/01: Closed

002	KPMG Consulting observed that Verizon's Product Interval Guides do not provide provisioning intervals for Directory Listing (DL) orders for either Resale or UNE products	Closed	Discussion Complete	5/22/01: Opened; Verizon disagreed with the findings. Action Items: Verizon is to provide information as to where the information regarding provisioning intervals can be located (website address, page number, line number, etc.). Verizon is to provide a date as to when the two versions of the Interval Guides will have consistent information at the next meeting. KPMG Consulting is to further investigate the issue and address Verizon's comments at the next meeting. KPMG Consulting is to further investigate the issue and address Verizon's comments at the next meeting. Verizon indicated that page 2 of the Resale Standard Intervals is changed to reflect the Directory Listing (DL) information. However, KPMG Consulting noted that the change provides intervals for Residential customers only, and not for Business customers. In addition, KPMG Consulting noted that while the Resale Standard Intervals references DL orders under Directory Listing Changes and Adds, the Intervals for Unbundled Network Elements references DL orders under Directory Assistance. Action Items: Verizon will investigate provisioning intervals for DL activities for business customers and address any follow-up questions at the next Observation meeting. O6/12/01: Verizon indicated that the Product Interval Guides for North and South are consistent. Verizon's website has been updated to include both residence and business Directory Assistance interval information as follows: Verizon South – Residence, Pg 2; Business, Pg 4 Verizon North – Residence, Pg 18; Business, Pg 20 Action Items: KPMG Consulting will investigate the updated Product Interval Guides regarding residential and business Directory Listing intervals and address any follow-up questions at the next Observation meeting.

	ACTIVE OBSERVATIONS				
				06/19/01: KPMG Consulting indicated that the changes to the Product Interval Guides for North and South do not appear in the documents posted on the website. Verizon indicated that the updates are available on the website referenced in the Observation itself. Action Items: KPMG Consulting will reinvestigate the Product Interval Guides and address any follow-up questions at the next Observation meeting. O6/26/01: Verizon indicated that the changes to the Product Interval Guides for North and South had been made to one of the two Verizon websites which is the reason why KPMG Consulting was not able to verify the changes last week. Verizon indicated that they updated the link so that both websites point to the same file. KPMG Consulting confirmed that the changes have been verified and proposed to close the observation next week. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
				07/03/01: Closed	
003	KPMG Consulting observed conflicting product intervals in documentation found on the Verizon web site for Resale service requests	Closed	Discussion Complete	5/22/01: Opened; Verizon agreed with the findings with an exception of the first item in Exhibit 1. KPMG Consulting may have transposed columns of Exhibit 1. Verizon indicated they would add disclaimer in the 'Resale Handbook' to indicate that the official Interval Guide is in the 'Resale Standard Intervals.' Action Items: Verizon is to provide a date as to when they will add the disclaimer at the next meeting. KPMG Consulting is to further investigate this issue and determine whether to issue amended observation. O6/05/01: Verizon indicated they will eliminate all intervals in the Resale Handbook and include a link in the website to the Resale Standard Intervals by June 15, 2001.	VA Observation Report 03 v2.pdf

	ACTIVE OBSERVATIONS				2 0001110110
	ACTIVE OBSERVATIONS			KPMG Consulting indicated the columns in Exhibit 1 were transposed and the observation will be amended accordingly. This observation is deferred until June 19, 2001 for further verification. Action Items: Verizon will report on the status re the Resale Handbook changes at the June 19 Observation meeting. 06/12/01: Deferred until June 19, 2001. Amended observation VA Observation Report 03 v2.doc is posted on the website. 06/19/01: Verizon indicated that they removed the intervals in the 'Resale Handbook' and added a link pointing to the 'Resale Standard Intervals.' Action Items: KPMG Consulting will investigate the updates in the 'Resale Handbook' and address any follow-up questions at the next Observation meeting. 06/26/01: KPMG Consulting confirmed that the changes have been verified and proposed to close the observation next week. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
004	KPMG Consulting received late Due Date Availability (DDA) responses	Closed	Discussion Complete	06/12/01: Opened; Verizon indicated that they need additional information such as date and time of the transactions noted in the observation. Action Items: KPMG Consulting will provide the submission date-time group of the transactions to Verizon, and address any follow-up questions at the next Observation meeting. 06/19/01: KPMG Consulting discovered an error in the observation and issued an amendment, VA Observation Report 04 v2.pdf. KPMG Consulting issued supporting	VA Observation Report 04 v2 VA Observation Report 04 detail

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				
	ACTIVE OBSERVATIONS			documentation for the transactions noted in the observation, VA Observation Report 04 detail.pdf. Verizon indicated that they are conducting an analysis of KPMG Consulting's experience against other CLECs' experience during the same period. Action Items: Verizon will address the issue and any follow-up questions at the next Observation meeting. O6/26/01: Verizon indicated that they had experienced a system condition on May 9, 2001 between 4:45 – 5:30 pm, which caused delays for other CLECs as well. On May 26, 2001, a software fix has been applied to the system to address this particular system condition. However, this system condition and its fix were not posted since CLECs did not report a problem. Verizon also indicated that two of the forty DDA transactions occurred during this system condition and that the average response time excluding the two transactions would be 5.08 seconds. AT&T asked if KPMG Consulting is planning to normalize the statistics for the observation, or if KPMG Consulting is planning to retest. KPMG Consulting indicated that DDA Response time would be retested during production. Action Items: KPMG Consulting will request necessary information to investigate and address any follow-up questions at the next Observation meeting. O7/03/01: KPMG Consulting asked about the system notification process of "non-reported" system conditions when the system condition affects the entire CLEC community. Verizon indicated that it is industry practice that "non-reported" system conditions are not reported to CLECs. AT&T asked how the system condition would affect the Late DDA metrics. KPMG Consulting responded that the observation will not change based on the system	

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				Documents
				condition that occurred on May 26, 2001. The two transactions that occurred during the system condition will not be excluded for calculating the average response time; rather, DDA timeliness will be tested and carefully observed during production. Action Items: KPMG Consulting will follow-up and address any questions at the next Observation meeting. KPMG Consulting indicated that DDA timeliness would be tested during production and proposed to defer this observation until August 21, 2001. In addition, KPMG Consulting confirmed that Verizon provided a reference to a new document for Verizon East Wholesale Customer Care Center, which details processes related to system conditions. Action Items: KPMG Consulting will address the issue and any follow-up questions at the August 21 Observation meeting. 7/17/01: Deferred until August 21, 2001. 07/24/01: Deferred until August 21, 2001. 08/07/01: Deferred until August 21, 2001. 08/21/01: KPMG Consulting indicated that we are conducting the production test and proposed to defer the observation until next week. Action Items: KPMG Consulting will address the issue and ask any clarification questions at the next Observation meeting. 08/28/01: KPMG Consulting indicated that we are conducting the production test and proposed to defer the observation meeting.

	ACTIVE OBSERVATIONS				
	ACTIVE OBSERVATIONS			questions at the next Observation meeting. 06/26/01: Verizon indicated that they had experienced a system condition on May 9, 2001 between 4:45 – 5:30 pm, which caused delays for other CLECs as well. On May 26, 2001, a software fix has been applied to the system to address this particular system condition. However, this system condition and its fix were not posted since CLECs did not report a problem. Verizon also indicated that four of the fifty-nine TNA transactions (Items 34, 35, 38, and 40) occurred during this system condition and that the average response time excluding the four transactions would be 8.84 seconds. In addition, Verizon indicated that the standard that should be used as the Telephone Number Availability & Reservation is a combination of ADR and TNA measures, which reflects a Retail composite metric. VA Commission asked why a composite should be used and not just PO-1-05. Action Items: KPMG Consulting will request necessary information to investigate and address any follow-up questions at the next Observation meeting. 07/03/01: Verizon reiterated their response from last week indicating that four of the fifty-nine TNA transactions (Items 34, 35, 38, and 40) occurred during this system condition and that the average response time excluding the four transactions would be 8.84 seconds. In addition, Verizon reiterated that the measurement of Telephone Number Availability & Reservation standard is a combination of Address Validation and Telephone Number measures, which reflects a Retail composite metric. April 2001 Retail Composite would be 9.99 seconds (Address Validation (4.86 seconds) plus	
				Telephone Number (1.13 seconds) plus parity (4 seconds)). KPMG Consulting responded that TNA

				 10/09/01: KPMG Consulting indicated that we will conduct process interviews and proposed to defer the observation until the next Observation meeting. Action Items: KPMG Consulting will address the issue at the next Observation meeting. 10/16/01: KPMG Consulting indicated that we are still in the process of conducting process interviews and will report on the observation after process testing has been completed.	

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				
				observation after process testing has been completed. Action Items: KPMG Consulting will address the issue at the next Observation meeting. 10/30/01: KPMG Consulting indicated that we conducted observations and interviews at Verizon's NMCs and observed that there are processes in place for the manual queue handling of both normal and supplemental LSRs. In addition, KPMG Consulting indicated that thus far we have observed no problems during production with these processes. KPMG Consulting consequently proposed to close the observation, indicating that we would continue to monitor the processes through production. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
				11/06/01: Closed	
007	KPMG Consulting cannot complete Resale pre-orders when adhering to Verizon's LSOG 4.5.1 Business Rules documentation	Closed	Discussion Complete	06/26/01: Opened; Verizon indicated that they agree with KPMG Consulting's findings and plan to update company codes through normal change control process. They will post a bulletin for CLECs around July 5. Action Items: Verizon will provide status on the change process and address any follow-up questions at the July 10th Observation meeting. 07/03/01: Deferred until July 10, 2001. 07/10/01: Verizon indicated that Change Control Bulletin #2151 for LSOG 4 was issued and discussed in the Change Control meeting on July 6, 2001. Verizon indicated that in CR #2151, the following two Field notes were added: 1) The CLEC/Reseller should input their Exchange Carrier Code in this field. 2) This field matches or maps to the RSID for Reseller or AECN for CLEC. KPMG Consulting indicated that we have two codes that do not map to each other. KPMG Consulting's ECC is	

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				
				WLAZ and RSID is 9995. Verizon asked if KPMG Consulting brought this issue up on the Change Control call. KPMG Consulting responded that the issue was discussed and Verizon's response was that the codes should not be conflicting. Action Items: Verizon will investigate whether this issue is unique to KPMG Consulting or not and find out if there are similar conditions that may affect other CLECs and address any follow-up questions at the next Observation meeting. 07/17/01: Verizon reiterated that per Change Control Bulletin #2151, when a CLEC/Reseller uses the Exchange Carrier Code (ECC), the system matches or maps the ECC to the RSID for Reseller or AECN for CLEC. In south, ECC will map to RSID or AECN; in north, ECC will match. The two codes do not need to be identical. VASCC asked if there would be potential problems if an entity was both CLEC and Reseller. Verizon indicated that there would be no potential problem. Action Items: RPMG Consulting will investigate and address any	
				follow-up questions at the next Observation meeting. 07/24/01: KPMG Consulting indicated that the documentation remains unclear. Verizon indicated that Change Request	
				#2151 was made as clarification per KPMG Consulting. Verizon would like KPMG Consulting to recommend a clarifying statement. KPMG Consulting indicated that we do not provide specific recommendations as to how the documentation should be worded; however, we would like to see more clarification so that, for example, a CLEC would not make the mistake of entering RSID in the company code field.	
				Action Items: Verizon will investigate and address any follow-up	

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				
				questions at the next Observation meeting. 07/31/01: Verizon indicated that they believe the bulletin is clear and concise. Further, they have nothing more to add to the bulletin. KPMG Consulting indicated that the first note is clear but the second note creates confusion. Verizon indicated that the second note was included per CLECs' request and that they do not intend to remove the second item. KPMG Consulting indicated that we understand Verizon's perspective, however, we still believe that the bulletin is unclear. Action Items: KPMG Consulting will address the issue at the next Observation meeting. 08/07/01: KPMG Consulting indicated that the bulletin remains unclear, however, the Change Control Bulletin does address the issue and we proposed to close the observation. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
				08/14/01: Closed	
008	KPMG Consulting received late Daily Usage Feed (DUF) records	Closed	Discussion Complete	 O6/26/01: Opened; Verizon indicated that they used the wrong DUF setup for KPMG Consulting. Instead of creating a new setup for Virginia, they had used the setup for Pennsylvania, causing Resale DUF to recycle. They indicated a fix has been applied. Action Items: KPMG Consulting will verify the changes, determine if retest is required, and address any follow-up questions at the next Observation meeting. 07/03/01: KPMG Consulting indicated that there would be a DUF re-test and proposed to close the observation next week. Action Items: KPMG Consulting will close the observation at the next Observation meeting. 	

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				
	THE TIPE OBSERVATIONS			07/10/01: KPMG Consulting indicated that rather than close this observation, the delivery of DUF records would be retested and proposed to defer it until August 21, 2001. Action Items: KPMG Consulting will address the issue and any follow-up questions at the August 21 Observation meeting. 07/17/01: Deferred until August 21, 2001. 07/24/01: Deferred until August 21, 2001. 08/07/01: Deferred until August 21, 2001. 08/07/01: Deferred until August 21, 2001. 08/14/01: Deferred until August 21, 2001. 08/21/01: KPMG Consulting indicated that we received all Resale records and Verizon met the timeliness standard of 95% within four business days and we proposed to close the observation next week. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
009	KPMG Consulting observed	Closed	Discussion	06/26/01: Opened; Verizon indicated that the issue is under	
	discrepancies in the June 2001 release of the Verizon – expressTRAK Quality Baseline Validation Test Deck (Version 4.4) for LSOG 4.6.1.	Closed	Complete	investigation and they will respond at the next Observation meeting. Action Items: Verizon will address the issues and any follow-up questions at the next Observation meeting. O7/03/01: Verizon indicated that they agree with the findings noted as items 1 and 2 in Exhibit 1. For Item #1, the control sheet was corrected but not updated before LSR. For Item #2, the control sheet was corrected after LSR. Verizon indicated the issues observed for items 1 and 2 are corrected in the eTRAK Test Deck version 4.5 (6/22/01). The third item (Scenario #33) is still under investigation. Action Items:

				meeting. Action Items: Verizon will address the issue and any follow-up questions at the next Observation meeting. 07/17/01: Verizon indicated that the issue is under further analysis and they will address the issue at the next Observation meeting. Action Items:	
				• Verizon will address the issue and any follow-up questions at the next Observation meeting. 07/24/01: Verizon indicated that a system condition, which affected six items in Exhibit 1, caused delays. Specifically, a table entry caused the six items to undergo an automatic dialtone test, which is invalid for these types of orders. A fix was implemented on 5/24. The other four items are still under investigation. Further, Verizon indicated that after adjusting for the six items affected by the system	
				condition, the results would meet the 97% timeliness guideline. Action Items: KPMG Consulting will investigate the issue and address any follow-up questions at the next Observation meeting. Verizon will address the four items under investigation and any follow-up questions at the next Observation meeting.	
				07/31/01: Verizon indicated that they would report on the remaining four items at the next Observation meeting. Further, Verizon indicated that with the system fix in place for the other six items, retesting might be suitable. KPMG Consulting indicated that similar to the other timeliness observations, we would test and observe during production. Action Items: Verizon will address the four items under

	ACTIVE OBSERVATIONS			investigation and any follow-up questions at the next Observation meeting. 08/07/01: Verizon indicated that they would report on the remaining four items at the next Observation meeting. Action Items: Verizon will address the four items under investigation and any follow-up questions at the next Observation meeting. 08/14/01: Verizon indicated that the remaining four items were delayed due to the following reasons: Items 5 & 8 – The Provisioning Completion Notices were completed manually. Item 9 – A Dial Tone test was incorrectly run on this order. Item 10 –A rep. issued a "billing only" order to update eTRAK in order to maintain the integrity of the database. Action Items: KPMG Consulting will address the issue and any follow-up questions at the next Observation meeting.	
				08/21/01: KPMG Consulting asked Verizon to explain when and why a "billing only" order is issued and if this special order applies to both wholesale and retail transactions in eTRAK. Verizon indicated that a "billing only" order is necessary to maintain the integrity of the eTRAK database. Whenever a rep. issues a "billing only" order, the system does not send an automatic notification back and manual intervention is necessary. With Item 10, the rep. failed to return a manual notification back to KPMG Consulting. Action Items: KPMG Consulting will address the issue and any follow-up questions at the next Observation meeting. Verizon will investigate and address whether "billing only" orders are issued for both wholesale and retail

	ACTIVE OBSERVATIONS				
	-	Status	Status Keason	was sent via Change Control during the second week of May and that KPMG Consulting should have received it through the normal Change Control process. Action Items: Both Verizon and KPMG Consulting will further investigate and address any follow-up questions at the next Observation meeting. O7/24/01: Verizon indicated that they are still investigating and would like to defer their response until the next Observation meeting. KPMG Consulting confirmed that we had not received any updated eTRAK USOC list since December 2000. In addition, KPMG Consulting asked where we would find documentation related to the process of obtaining the eTRAK USOC list, scheduled for release on 7/21. In addition, KPMG Consulting asked how the 7/21 date relates to Change Control #1573 which indicates 6/16 as the release date. Verizon indicated that the release date has been deferred to August. AT&T asked a clarifying question whether KPMG Consulting is looking for two separate Change Control messages that change the date: one for change from June to July and another for change from July to August. KPMG Consulting concurred. Action Items: Verizon will further investigate and address any	
				follow-up questions at the next Observation meeting. 07/31/01: Verizon indicated that KPMG Consulting should have received the updated eTRAK USOC list via VA Change Control on 5/30 and 6/18. Further, Verizon indicated that CR #1573 addresses the process of obtaining the eTRAK USOC list and that the availability of the list is discussed during Change Control and Industry Change meetings. KPMG Consulting reiterated that we had not received an updated eTRAK USOC list since December 2000 and that CR #1573 indicates that the list should be available

				via FTP on 6/16.	
				Action Items:	
				 KPMG Consulting will address the issue at the n 	ext
				Observation meeting.	
				08/07/01: KPMG Consulting indicated that we obtained a copy of	f
				July Industry Change Control Meeting Materials and	
				reviewed updates to CR #1573. However, there is no	
				mention of changed release date of 7/21. According to	the
				documentation, on 6/18 Verizon indicated eTRAK	
				USOCs had been updated with the June 2001 release, a	and
				then on 6/20 Verizon changed the status on eTRAK	
				USOC availability to "Requirements Pending." Althor	
				the Industry Change Control Meeting material indicate	
				"requirements pending" for eTRAK USOC availability	,
				KPMG Consulting observed that Verizon's "USOC	
				Description and Rate Database" documentation was	
				updated sometime after July 31 to state that the file	
				available via FTP contains both Legacy and eTRAK	
				USOCs and provided instructions on obtaining USOCs	
				via FTP. We followed the instructions in the "USOC	
				Description and Rate Database" to obtain the USOC li	St
				via FTP and observed that the list does contain both	
				Legacy and eTRAK USOCs, however, it is not a complete list. The new file available via FTP still does	
				not contain the USOC "DTL" for Dial Tone Line as	•
				stated in the observation. In addition, KPMG Consulti	ng
				found that the "USOC Description and Rate Database"	
				documentation does not provide Column Definitions for	
				the eTRAK USOCs.	'1
				Action Items:	
				 Verizon will investigate and address the issue at the 	ne
				next Observation meeting.	
				08/14/01: KPMG Consulting indicated that we would defer this	
				issue until next week.

	ACTIVE OBSERVATIONS				
				■ KPMG Consulting will investigate and address the issue at the next Observation meeting. 08/21/01: KPMG Consulting summarized the overall issue into 3 categories: ■ No eTRAK USOC Updates since December 2000 — KPMG Consulting followed the process and submitted our NDA; however, from Verizon's perspective, there was no signed NDA with KPMG Consulting. Therefore, KPMG Consulting was not added to the distribution list for the eTRAK USOC updates. Resolution — Verizon indicated that KPMG Consulting has been added to the distribution list; however, KPMG Consulting may not receive any additional eTrak USOC updates since the new FTP process is in place. In addition, to ensure that future CLEC requests are processed appropriately, a new process is now in affect. CLECs must work through their respective Account Managers to be included in the distribution list. ■ Change Control Notifications — There appears to be three different dates associated with the eTRAK USOC retrieval process via FTP: ■ The CR #1573 indicates that the new process should be available on 6/18. ■ On 6/20, a change was made to CR #1573 to indicate that the new process is scheduled for August. ■ During VA Observation calls, Verizon indicated the new process should be ready on 7/21. Resolution — KPMG Consulting indicated that the 7/21 date was an internal Verizon release date, which Verizon shared during the Observation calls. The public date for the new process was originally 6/18 and then revised to August. The new FTP process

	ACTIVE OBSERVATIONS				
				for obtaining eTRAK USOC is now in affect and has been discussed in the CR meetings with CLECs. • eTRAK USOC Materials on the Web – The document KPMG Consulting referenced during the 8/7 Observation call, "USOC Description and Rate Database," was obtained from the Verizon website. However, according to Verizon this document is a "test version" that was posted to the web site prematurely. Resolution – Verizon indicated that the new FTP process is now in affect and the "official" documents are available for KPMG Consulting to download and verify. Action Items: • KPMG Consulting will investigate and address the issue at the next Observation meeting. KPMG Consulting recapped the 3 major categories from last week's call and indicated that the eTRAK USOC update notification was e-mailed to us on 6/18. In addition, we confirmed that the new FTP process is available on the web site and that we followed the instructions to obtain the new eTRAK USOC material. However, we had additional questions regarding the new material: • "USOC Description and Rate Database" – Following the FTP instructions available on the website, KPMG Consulting obtained a copy of the new "USOC Description and Rate Database" document and noted that instructions for both Legacy and eTRAK USOC files, and document change summary were available. However, we noted that the instructions of the eTRAK USOC file are not available; making it difficult to correctly export the eTRAK USOC list in a proper format.

				Action Items: Verizon will review the Items 5, 9, 10, & 11 and address the issue at the next Observation meeting. Verizon indicated that they agreed with KMG Consulting's assessment of Items 9, 10, & 11 and plan to issue CR #2183 on 8/23. However, Verizon disagreed with our assessment of the Item 5. The two fields (Accept and Reject) on the ERR form are applicable to Web GUI only and not for EDI. A clarification comment was made on the EDI Guide v.4.7 released on 8/15. Action Items: KPMG Consulting will review the new EDI Guide and address the issue at the next Observation meeting. 8/28/01: KPMG Consulting indicated that we reviewed CR #2183 issued on 8/23 and do not have outstanding discrepancies. In addition, we agreed that the comment added to the EDI Guide v4.7 addresses the final discrepancy and proposed to close the observation. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
019	Unbundled Switching and Transport Usage rates were incorrectly applied and billed to the KPMG Consulting CLEC on Verizon Virginia CABS bills	Closed	Discussion Complete	07/17/01: Opened; Verizon indicated that they agree with the findings that wrong rates had been applied. However, some of KPMG Consulting's expected rates were not calculated correctly: Item 1: Expected Rate & Actual Rate should be zero until the proposed rate is approved by the commission Item 2 & 3: KPMG Consulting's Expected Rate is accurate and they have been corrected on 7/1 CABS bills Item 4 & 5: Actual Rate on the bill is accurate, however, it was not posted on the website correctly

			Further, Verizon indicated that credits will be issued to CLECs for any overcharges and will respond at the next Observation call as to when CLECs should expect credit in their bills and when updates will be made to the website. Action Items: Verizon will report as to when CLECs should expect credit in their bills and when updates will be made to the website at the next Observation meeting. O7/24/01: Verizon indicated that they do not have the date as to when CLECs should expect credit in their bills. However, updates for rates on the website will be made on Wednesday, July 25, 2001. KPMG Consulting asked when Verizon filed for tariff change for the Item 1 noted in Exhibit 1. Action Items: Verizon will investigate as to when CLECs should expect credit in their bills and report on when they filed for tariff at the next Observation meeting. KPMG Consulting will investigate updates to the website and address any follow-up questions at the next Observation meeting. O7/31/01: KPMG Consulting confirmed that the website has been updated. Verizon indicated that credits will be applied on September bill and that they had filed for the tariff change on 7/2. Action Items: KPMG Consulting will address the issue at the next Observation meeting. KPMG Consulting proposed to defer this issue until DUF re-test. Action Items: KPMG Consulting will address the issue and any follow-up questions at the Observation meeting

	ACTIVE OBSERVATIONS				
	ACTIVE OBSERVATIONS			08/14/01: Deferred until August DUF retest. 08/21/01: KPMG Consulting indicated that we have completed the DUF retest and are now conducting analysis. Since we will not receive the DUF bills until the 5th day after the billing cycle, we proposed to defer until 9/25. Action Items: KPMG Consulting will address the issue and ask any clarification questions at the Observation meeting to be held on 9/25. 08/28/01: Deferred until September 25, 2001. 09/04/01: Deferred until September 25, 2001. 09/11/01: Meeting cancelled. 09/18/01: Meeting cancelled. 09/25/01: Meeting cancelled. 10/02/01: KPMG Consulting found corresponding tariff amounts on both the wholesale website and on the CABs bill during the retest and proposed to close the observation. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
020	KPMG Consulting received late Billing Completion Notices (BCM)	Closed	Discussion Complete	10/09/01: Closed 07/24/01: Opened; Verizon indicated that they would address the issue at the next Observation meeting. Action Items: Verizon will address the issue and any follow-up questions at the next Observation meeting. 07/31/01: Verizon indicated they agree with the findings. Verizon's responses to the fifteen items in Exhibit 1 are as follows: Items 1 – 4 & 8: Due to a system condition but were corrected on 6/24. This issue was identified by KPMG Consulting (Trouble Ticket #303165) and retested during SRT. Items 5, 6, & 9 – 15: Due to a system condition but were corrected PCM delay on 6/24 (by inference corrected BCM).

	ACTIVE OBSERVATIONS				Documents
	ACTIVE OBSERVATIONS			 Item 7: Rep error. This item was manually returned. Verizon has conducted training sessions with the rep and is providing on-going training to the NMC reps. Action Items: KPMG Consulting will address the issue at the next Observation meeting. 08/07/01: KPMG Consulting indicated we had not conducted a retest in SRT of the issues identified in Items 1 – 4, & 8 as indicated by Verizon last week. However, we do intend to retest the issues identified as Items 1 – 6 and 8 – 9 in production. In addition, we requested more information and clarification on Item 7 as to why a rep error occurred.	
				 Verizon will address the issue at the next Observation meeting. 08/14/01: Verizon indicated that for Item 7, a rep. issued a "billing only" manual order to correct the eTRAK database, which caused the BCM delay. Action Items: KPMG Consulting will address the issue and any 	
				follow-up questions at the next Observation meeting. 08/21/01: KPMG Consulting indicated that the "billing only" question for Observation 11 applies to this observation as well. In addition, we are conducting production testing as well as timeliness analysis and deferred discussion until next week. Action Items: KPMG Consulting will address the issue and any follow-up questions at the next Observation meeting. Verizon will investigate and address whether "billing	
				only" orders are necessary for both wholesale and retail transactions at the next Observation meeting. 08/28/01: KPMG Consulting indicated that we are conducting the

Closed	Discussion Complete	10/02/01: Opened; Verizon indicated that they would address the issue at the next Observation meeting. Action Items: Verizon will address the issue at the next Observation meeting. 10/09/01: Verizon indicated that KPMG Consulting would need to use appropriate identification to correctly access RETAS. Action Items: KPMG Consulting will investigate the issue and ask any clarification questions at the next Observation meeting. 10/16/01: KPMG Consulting indicated that we had requested that IDs be set up to allow us to access RETAS both as a UNE and Resale CLEC, to which Verizon responded that the IDs provided could do both. KPMG Consulting replied that we would supply a soft copy of documentation to Verizon. Action Items: KPMG Consulting will supply a soft copy of documentation to Verizon and address the observation at the next Observation meeting. 10/23/01: Verizon indicated that their initial response was incorrectly phrased and that it should have conveyed that each ID was set up with a default to either UNE or Resale. Verizon explained that KPMG Consulting was attempting to access RETAS as a UNE CLEC with a Reseller ID and, therefore, could not attain access to the

	ACTIVE OBSERVATIONS				
				system. In addition, Verizon indicated that CLECs are provided with IDs that work in the same way as those provided to KPMG Consulting. KPMG Consulting requested supporting documentation for Verizon's assertions and indicated that we would also look for supporting documentation. Verizon indicated that they would look for supporting documentation for their assertions. Action Items: KPMG Consulting and Verizon will look for supporting documentation and address the issue at the next Observation meeting. 10/30/01: KPMG Consulting indicated that we were unable to find any supporting documentation for Verizon's assertions. Verizon indicated that supporting documentation for their assertions could be found in the student guide under "Administrative Functions" on the Verizon website. Action Items:	
				 KPMG Consulting will look at the supporting documentation specified by Verizon and address the issue at the next Observation meeting. 11/06/01: KPMG Consulting indicated that we received the documentation forwarded by Verizon, have reviewed it and are satisfied that it supports Verizon's assertions that the IDs we requested in order to access RETAS both as a UNE and Resale CLEC were set up with a default to either UNE or Resale, and that CLECs are provided with IDs that work in the same way. KPMG Consulting consequently proposed to close the observation. Action Items: KPMG Consulting will close the observation at the next Observation meeting. 11/13/01: Closed

	ACTIVE OBSERVATIONS				
043	KPMG Consulting received expressTRAK bills from Verizon with unexpected credits for prorated Other Charges and Credits (OCC) charges and Monthly Recurring Charges (MRC).	Closed	Discussion Complete	10/30/01: Opened; Verizon indicated that the unexpected credits are a result of the zero balancing of KPMG test accounts in order to avoid collection on the bills. In addition, Verizon indicated that this was an action specific to KPMG Consulting's accounts and a test bed artifact. Action Items: KPMG Consulting will address the issue at the next Observation meeting. 11/06/01: KPMG Consulting indicated that we looked at the July 19, 2001 and August 5 and 19, 2001 bills and observed that the balances are zeroed out. In addition, KPMG Consulting indicated that we observed no unexpected credits on other bills. KPMG Consulting consequently proposed to close the observation. Action Items: KPMG Consulting will close the observation at the next Observation meeting.	
044	KPMG Consulting observed inconsistencies between the Service Order ID (SOID) on Verizon's notifications and the SOID on the expressTRAK bill for the same telephone numbers.	Closed	Discussion Complete	10/30/01: Opened; Verizon proposed to defer the observation until the next Observation meeting. Action Items: Verizon will address the issue at the next Observation meeting. 11/06/01: Verizon indicated that there is no corresponding field for the SOID on expressTRAK bills and that the SOID that KPMG Consulting cited from the expressTRAK bill was actually a service request field number. In addition, Verizon indicated that through change control, CLECs could request that an SOID field be placed on the expressTRAK bill. KPMG Consulting indicated that we would perform further analysis and ask any clarifying questions at the next Observation meeting. Action Items: KPMG Consulting will perform further analysis and ask any clarifying questions at the next Observation

	ACTIVE OBSERVATIONS				
				meeting. 11/13/01: KPMG Consulting indicated that we looked at the expressTRAK documentation and were unable to find documentation stating that the service request field number on the expressTRAK bill should be the same as the SOID on Verizon's notifications. In addition, KPMG Consulting indicated that there is documentation in Pennsylvania and New Jersey that states that these numbers should be the same. KPMG Consulting proposed to close the observation, as there is no documentation stating that the numbers must be the same. Action Items: KPMG Consulting will close the observation at the next Observation meeting. 11/20/01: Closed; WorldCom asked a clarifying question regarding the impact of SOID inconsistencies on CLECs.	
046	KPMG Consulting observed inconsistencies in the Verizon Order EDI Guide.	Closed	Discussion Complete	10/30/01: Opened; Verizon indicated that they are reviewing the Order EDI Guide and intend to issue a bulletin to CLECs addressing the issues raised in the observation. Action Items: KPMG Consulting will review the bulletin upon its issuance and address the issue at the subsequent Observation meeting. 11/06/01: Verizon indicated that a bulletin has been issued to change the Order Business Rules and subsequently correct Items 1 and 2. Bulletin #2311 will be issued on November 12, 2001 to correct the Verizon Order EDI Guide and subsequently correct Items 3-5 and 7-19. Bulletin #2234, issued on September 20, 2001, corrected Item 6. Verizon indicated that they do not agree with the finding for Item 20 because the SLN field in RPL EDI Example 3.18 is correct. Action Items: KPMG Consulting will review the bulletins when	

ID	Brief Description	Status	Status Reason	Notes	Additional Documents
	ACTIVE OBSERVATIONS				
				they are issued. In addition, KPMG Consulting will investigate the items that remain open and address the issue at the subsequent Observation meeting. 11/13/01: KPMG Consulting indicated that we would look for bulletin 2311 to be issued the week of November 12, 2001 to clarify Items 1-5 and 7-19. Change Request #2234, issued on September 20, 2001, resolved Item 6. In addition, KPMG Consulting indicated that we have discrepancies with Verizon's disagreement for Item 20 and that we would forward a written response to Verizon to address these discrepancies. Action Items: KPMG Consulting will review the bulletin to be issued the week of November 12, 2001 to clarify Items 1-5 and 7-9; revise the observation to reflect the issuance of the bulletin, the Change Request issued for Item 9 and our discrepancies with Item 20; and forward a written response to Verizon to address our discrepancies with Item 20.	
				11/20/01: KPMG Consulting indicated that Items 1 and 2 have been resolved by Bulletin 2318, Items 3, 5, and 7-19 have been resolved by Bulletin 2311 and Item 6 has been resolved by Bulletin 2234. In addition, KPMG Consulting indicated that we are still reviewing Items 4 and 20, and consequently proposed to defer and address Items 4 and 20 at the next Observation meeting. Action Items: KPMG Consulting will address the issue at the next Observation meeting. 11/27/01: KPMG Consulting indicated that only Items 4 and 20 remain under discussion. In addition KPMG Consulting indicated that we issued a written response in regard to these items. For Item 4, KPMG Consulting responded that on page 12 of the EDI Guidelines, the IWJQ field includes qualifying data element SLN DE235=EQ. IWJQ

	ACTIVE OBSERVATIONS				Documents
	ACTIVE OBSERVATIONS			is defined as mapping in the SLN04. CR# 2311 did not address any EDI Guideline changes for the CRS, IWJQ field. In addition, we reviewed the ELMS4 TCIF/EDI Guide (LSOG 4) and TCIF does not depict the RPL, IWJQ field with the 'EQ' qualifier. For Item 20, we have reviewed the ELMS4 TCIF/EDI Guide (LSOG 4) and TCIF does not depict the RPL, IWJQ field with the 'EQ' qualifier. Verizon proposed to defer the observation until the next Observation meeting. **Action Items:* Verizon will address the issue at the next Observation meeting. 12/04/01: KPMG Consulting indicated that as of last week, only Items 4 and 20 remain open and that a conference call was held to clarify the items. KPMG Consulting indicated that on this conference call, Verizon clarified that the SLN DE235 qualifier "EQ" was noted in the IWJQ field as a reference point to help identify the IWJQ/IWJK relationship and the correct SLN segment to populate the fields, which successfully clarified Verizon's use of the "EQ" qualifier with the IWJQ field. AT&T asked a clarifying question in regard to the nature of the conference call. KPMG Consulting indicated that the conference call was one to which both Verizon and the VASCC were invited and that it was held in order to clarify our interpretation of Verizon's documentation. KPMG Consulting proposed to close the observation at the next Observation meeting. **Action Items:* KPMG Consulting will close the observation at the next Observation meeting.

				next Observation meeting. 12/04/01: Closed	
054	KPMG Consulting received	Rescinded	Non Issue	11/27/01: Opened; Verizon indicated that in the C2C Guidelines,	
	invalid time-out notifications for Directory Listing Request (DLR) pre-order inquiries submitted via the Electronic Data Interface (EDI).			the 330-second threshold exists for purposes of metrics calculations, not for time-out responses. KPMG Consulting indicated that we would investigate Verizon's response and ask any clarifying questions at the next Observation meeting. AT&T indicated that consensus metrics should be reviewed in order to change the threshold to 60 seconds. VASCC indicated that the 330-second threshold is not a standard but exists for metrics calculation purposes. Action Items: KPMG Consulting will investigate Verizon's response and ask any clarifying questions at the next Observation meeting.	
				12/04/01: Rescinded; KPMG Consulting indicated that, based on Verizon's response to the observation, we reviewed the C2C Guidelines, which state that time-outs are set at 330 seconds for purposes of metrics calculations only. In our observation, we stated that we received invalid time-out notifications because they were received in less than 330 seconds. However, in light of the C2C Guidelines, these responses are no longer considered to be invalid notifications. Consequently, KPMG Consulting has rescinded this observation.
